N NEWS LETTER

PRAY FOR OUR WORLD

1 We have been praying for the needs in our world and especially for believers in persecuted countries. Students and staff raised \$500 to help with the cost of printing and distributing Scripture passages which have been translated into languages of people groups who do not have the Bible in print. With a matching donor our gift was doubled to \$1,000!

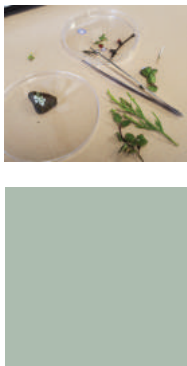

2 Congratulations to GVCS students for their performances during Taekwondo Day on March 26! There were homeroom competitions in Poomsae, Sparring, Breaking Board, Yell, and a kicking event between teachers and students. The winning homerooms were 8th grade, 10th grade and 11th grade.

3 Parent Teacher Conferences are being held through zoom this week and next. We are so grateful for technology that makes it possible to meet with parents remotely!

4

7th grade SAP (Study Abroad Program) students have recently participated in the following experiences: Science classes using microscopes, Geography classes posting prayers for peoples of the world on the hallway bulletin board, activities in Creative Arts book reports in English.

We are welcoming the the warmer weather of spring-time! The high school biology class went outside to pick newly grown seeds and leaves for observation under microscopes.
